Main objective of STOP-SV

Create a **strategy of intertwined actions** aimed at:

- **Explore the conditions that facilitate and / or promote sexual harassment (SH) and sexual violence (SV) in nightlife environments.**
- **Create a system to detect and prevent SH / SV through community coalitions** that support the training of staff working in these environments.
- **Socialize the problem and solutions** through a dissemination system that reaches the strategic groups to ensure the sustainability of the program after the conclusion of the project (industry, administrations, civil society).

STOP-SV prevention strategy

1. Active involvement of the industry as a preventive agent

- Strategy design and implementation logistics
- Facilitation of the training of trainers / staff of the venues
- Inclusion of models and protocols within CSR / prevention policies
- Sustainability

2. Creation of a support coalition as a local facilitating network

- Exploration of the issue and data register (facilitation / data collection)
- Facilitating changes in leisure contexts
- Contribution in the supervision and evaluation of the pilot implementation

3. Raise awareness of the issue and disseminate the preventive strategies

- Community mobilisation (industry, administrations, civil society)
- Involvement of youth organizations
